

GRASS STYLE HINGE REMOVAL AND INSTALLATION

STEP 1

INSTALLATION:

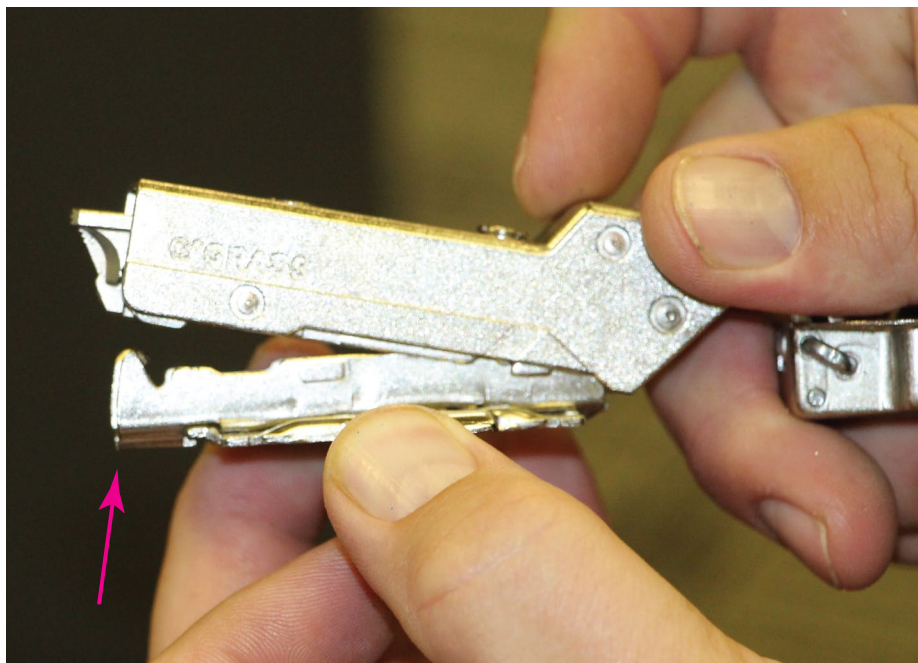

Insert the hinge onto the mount as shown in the picture. Insert the raised pin on the cabinet side of the hinge so it lines up with the diagonal indentation on the door side of the hinge.

STEP 2

INSTALLATION:

Once the end is inserted into the front edge, tip the hinge into the opposite end and the two halves will latch together.

STEP 1

TO REMOVE THE DOOR

Simply press in the release on the end of the hinge and lift away from the cabinet mounted portion. The two halves will separate.

HINGE ADJUSTMENT SCREWS

Moves door left and right in the opening.

Moves door up and down in the opening.

Moves door forward and back in the opening.
