

TOOLS REQUIRED FOR ASSEMBLY

Socket set, Tape Measure, Cordless drill with 3/8" socket bit, & pencil.

BEFORE ASSEMBLY

Read through the assembly instructions to familiarize yourself with the order in which the parts are assembled. We suggest that you clear & vacuum the area where the table is to be assembled. It is important that the bench is assembled in the same sequence as instructed.

HARDWARE

All assembly hardware is provided.

STEP 1

Place the top, bottom side up on a clean blanket or other clean surface that will not scratch the finished surface. This may require assistance. Attach the 4 legs to the bottom side of the top. See the below schematic for leg placement. Once positioned screw the leg mounting plates to the top using #14 x 1" lag screws.

Once legs are secure, carefully flip table over into its upright position.

#14 x 1"
Lag Bolt
