

PCB-700 Series Workstation

shown with optional accessories

The PCB-700 series features a full height wire chase compartment that is ideal for concealing network cabling and power cords. Under work surface supports and sliding front access to the wire chase are standard. Chase is accessible from all sides, including the floor. The welded base is constructed of 16 gauge steel tubing. Laminate work surfaces feature a 1¼" thick high pressure laminated MDF core with our Polyurea spray applied Armor Edging. All tops feature a balance backer sheet. See color chart for standard and available color options. Work surface has 4" back and end stops to keep all items within the work area. The large 3¼" hole grommet is large enough for all cables, but small enough to keep out unwanted debris. Height dimension listed is to bottom of work surface, for overall working height add 1¼" for thickness of top.

Model Number	Description	Size
		D x W x H
PCB-700-3036	Single	30" x 36" x 28"
PCB-700-3042	Single	30" x 42" x 28"
PCB-700-3048	Single	30" x 48" x 28"
PCB-700-3060	Single	30" x 60" x 28"
PCB-700-3072	Double	30" x 72" x 28"
PCB-700-3078	Double	30" x 78" x 28"
PCB-700-3084	Double	30" x 84" x 28"
